

ALTICE USA ANNOUNCES BULLHEAD CITY BECOMES A SUDDENLINK GIG CITY

Other Suddenlink Internet Speeds Have Been Automatically Increased

BULLHEAD CITY, Ariz. (Dec. 20, 2016) – Altice USA announced today that it is now offering Suddenlink internet service with an up to 1 Gigabit per second download speed in Bullhead City. The company also announced today that it has automatically increased certain other Suddenlink residential internet speeds for existing customers.

“This is great news,” said Bullhead City Mayor Tom Brady. “Altice USA’s Suddenlink Gigabit service will provide more business opportunities and offer citizens a great new option to maximize their use of the internet.”

“Today’s announcement is the next step in our Operation GigaSpeed initiative,” said Altice USA Co-President and Chief Operating Officer Hakim Boubazine. “In sharp contrast to other large providers, which are offering a Gigabit service primarily to a few neighborhoods in large urban markets, we’re pleased to be making our Suddenlink Gigabit service available in all of the neighborhoods and to all of the households and businesses we serve throughout Bullhead City.”

Boubazine added that local business owners also will have access to the new Gigabit service, along with Suddenlink customized services the company offers that are capable of multi-Gigabit speeds.

In addition to launching the 1 Gigabit internet service, residential high-speed internet customers with current download speeds up to 75 and 100 Megabits per second (Mbps) have been automatically moved to services with download speeds up to 100 and 200 Mbps, respectively. The standard Suddenlink residential internet download speeds in Bullhead City are now up to 50, 100, and 200 Mbps, along with the new up to 1 Gig service.

More information about local Suddenlink high-speed internet services is available at www.suddenlink.com, by visiting the Suddenlink Retail Store at 2585 Miracle Mile Road in Bullhead City, or contacting Suddenlink toll-free at 1-877-443-3127.

ALTICE USA ANNOUNCES NACOGDOCHES BECOMES A SUDDENLINK GIG CITY

Other Suddenlink Internet Speeds Have Been Automatically Increased

NACOGDOCHES, Texas (Dec. 21, 2016) – Altice USA announced today that it is now offering Suddenlink internet service with an up to 1 Gigabit per second download speed in Nacogdoches. The company also announced today that it has automatically increased certain other Suddenlink residential internet speeds for existing customers.

"The availability of Suddenlink's new 1 Gigabit internet service in Nacogdoches is something to be excited about," said State Rep. Travis Clardy. "It's a sign of progress and will make it easier for people to do business, students to research, and everyone to take advantage of the best that the internet has to offer. Thanks, Altice USA, for investing in our town."

"Suddenlink's new 1 Gigabit internet service will enhance our ability to attract and retain business. I congratulate Suddenlink for providing this product," said Nacogdoches County Chamber of Commerce President and CEO C. Wayne Mitchell.

"Today's announcement is the next step in our Operation GigaSpeed initiative," said Altice USA Co-President and Chief Operating Officer Hakim Boubazine. "In sharp contrast to other large providers, which are offering a Gigabit service primarily to a few neighborhoods in large urban markets, we're pleased to be making our Suddenlink Gigabit service available in all of the neighborhoods and to all of the households and businesses we serve throughout Nacogdoches."

Boubazine added that local business owners also will have access to the new Gigabit service, along with Suddenlink customized services the company offers that are capable of multi-Gigabit speeds.

In addition to launching the 1 Gigabit internet service, residential high-speed internet customers with current download speeds up to 75 and 100 Megabits per second (Mbps) have been automatically moved to services with download speeds up to 100 and 200 Mbps, respectively. The standard Suddenlink residential internet download speeds in Nacogdoches are now up to 50, 100, and 200 Mbps, along with the new up to 1 Gig service.

More information about local Suddenlink high-speed internet services is available at www.suddenlink.com, by visiting the Suddenlink Retail Store at 409 N. Fredonia in Nacogdoches, or by calling toll-free at 866-269-4386.

ALTICE USA ANNOUNCES BRANSON BECOMES A SUDDENLINK GIG CITY

Other Suddenlink Internet Speeds Have Been Automatically Increased

BRANSON, Mo. (Dec. 21, 2016) – Altice USA announced today that it is now offering Suddenlink internet service with an up to 1 Gigabit per second download speed in the Branson/Hollister Tri-Lakes area. The company also announced today that it has automatically increased certain other Suddenlink residential internet speeds for existing customers.

“This is such an exciting milestone for Branson as Suddenlink makes its new 1 Gigabit internet offering available to this city,” said Branson Mayor Karen Best. “In this digital era, we are so fortunate to have the ability to instantly access information that allows us to transact business, communicate across the globe, share information in real-time, and even help students to reference information to bring them to a higher level of knowledge. Suddenlink’s provision of high-quality, high-speed internet helps to not only bring information to citizens, visitors, and business owners faster, but also maintains our city’s competitive position as we grow our economy and become a viable option for new and existing businesses looking to invest in our community, while also creating a ‘live here – work anywhere’ option for today’s professionals.”

“Today’s announcement is the next step in our Operation GigaSpeed initiative,” said Altice Co-President and Chief Operating Officer Hakim Boubazine. “In sharp contrast to other large providers, which are offering a Gigabit service primarily to a few neighborhoods in large urban markets, we’re pleased to be making our Suddenlink Gigabit service available in all of the neighborhoods and to all of the households and businesses we serve throughout the Branson/Hollister Tri-Lakes area.”

Boubazine added that local business owners also will have access to the new Gigabit service, along with Suddenlink customized services the company offers that are capable of multi-Gigabit speeds.

In addition to launching the 1 Gigabit internet service, residential high-speed internet customers with current download speeds up to 75 and 100 Megabits per second (Mbps) have been automatically moved to services with download speeds up to 100 and 200 Mbps, respectively. The standard Suddenlink residential internet download speeds in the Branson/Hollister Tri-Lakes area are now up to 50, 100, and 200 Mbps, along with the new up to 1 Gig service.

More information about local Suddenlink high-speed internet services is available at www.suddenlink.com, by visiting the Suddenlink Retail Store at 310 Walnut Extension in Branson, or by calling toll-free at 888-822-5151.

ALTICE USA ANNOUNCES TRUCKEE BECOMES A SUDDENLINK GIG CITY

Other Suddenlink Internet Speeds Have Been Automatically Increased

TRUCKEE, Calif. (Dec. 21, 2016) – Altice USA announced today that it is now offering Suddenlink internet service with an up to 1 Gigabit per second download speed in Truckee. The company also announced today that it has automatically increased certain other Suddenlink residential internet speeds for existing customers.

“This is fantastic news for Truckee,” said Truckee Town Manager Tony Lashbrook. “This new 1 Gigabit service gives Truckee a cutting edge tool to help attract and retain businesses and provides our residents with enhanced internet service options.”

“Today’s announcement is the next step in our Operation GigaSpeed initiative,” said Altice USA Co-President and Chief Operating Officer Hakim Boubazine. “In sharp contrast to other large providers, which are offering a Gigabit service primarily to a few neighborhoods in large urban markets, we’re pleased to be making our Suddenlink Gigabit service available in all of the neighborhoods and to all of the households and businesses we serve throughout Truckee.”

Boubazine added that local business owners also will have access to the new Gigabit service, along with Suddenlink customized services the company offers that are capable of multi-Gigabit speeds.

In addition to launching the 1 Gigabit internet service, residential high-speed internet customers with current download speeds up to 75 and 100 Megabits per second (Mbps) have been automatically moved to services with download speeds up to 100 and 200 Mbps, respectively. The standard Suddenlink residential internet download speeds in Truckee are now up to 50, 100, and 200 Mbps, along with the new up to 1 Gig service.
